2014 Volunteer Project Directory

Caring for the land and serving people

[This page inserted to format for duplex printing]

Dear Prospective Volunteer:

Welcome to the Volunteer Program of the USDA Forest Service – Angeles National Forest!

The Angeles National Forest, located right next door to the city of Los Angeles, California, is an invaluable public treasure. For literally millions of people, this mega-urban national forest is a favorite “go-to” place for recreation, solitude, renewal, and relief from city-life stresses. And for many – adults and children alike – it serves as an outdoor classroom where they can learn about their natural and cultural heritage, and the importance of natural resource conservation.

The USDA Forest Service is mandated to care for this 655,387-acre forest, and to serve its millions of visitors. For decades, the agency has relied on dedicated volunteers and partners to accomplish this. In 2013 alone, volunteers contributed over 75 thousand hours of their time (valued at nearly 1.7 million dollars) to vitally important activities on the Angeles National Forest, such as maintaining trails, hosting campgrounds, staffing visitor centers and environmental education activities, and restoring valuable wildlife habitat.

If you're already a volunteer, I want to thank you for all that you've done. Your contribution of time and effort, combined with those of thousands of other volunteers, is what makes it possible to achieve the mission of the Forest Service: *“to sustain the health, diversity, and productivity of the National’s forests and grasslands to meet the needs of present and future generations.”*

And if you've never volunteered, but you're interested in getting involved, I invite you to take a few minutes to explore this directory of volunteer projects. You will find a variety of activities on these pages. Some projects will provide you with an opportunity to use a favorite skill; others may introduce you to a new career interest. Regardless of which project you select, we will do our best to ensure that you and your organization have a volunteer experience that is safe, rewarding and challenging.

Once you have read the directory and found a project that interests you, the next step is to contact the person listed for that project to get answers to any questions you might have. Then, if you decide you want to apply, you’ll need to complete the application found on the Angeles National Forest volunteers website at <http://www.fs.usda.gov/main/angeles/workingtogether/volunteering>, and mail it to the contact person; or you may choose to scan and e-mail it to AngelesNFVolunteers@gmail.com.

While you’re at the volunteers website, you can also click on the “additional opportunities” link to access information about more than 40 volunteer groups who are currently and very actively involved with us. Please feel free to contact any of them directly about volunteering with them. (These are the same groups as listed in our “Hall of Fame” at the back of this directory. Check it out!)

Thank you for your interest in volunteering for the Angeles National Forest. We look forward to hearing from you soon!

Sincerely,

Thomas A. Contreras

The Angeles National Forest is located mainly in the San Gabriel Mountains just north of Los Angeles. It is considered to be one of the most urban national forests in the nation, with more than 17 million people living within an hour's drive and approximately 4 million visitors each year.

The Forest is divided into three Ranger Districts oriented around watershed boundaries: the Los Angeles River Ranger District, the Santa Clara/Mojave Rivers Ranger District, and the San Gabriel River Ranger District. Elevations range from 1,200 feet to 10,064 feet, with dense chaparral and oak covering the lower- to mid-elevation slopes and various conifer species in the higher elevations.

The Angeles provides 72 percent of all open space in Los Angeles County, and a third of all downstream water in the Los Angeles basin. The major infrastructure for the basin is located within the Forest. This includes power lines, water conveyances, telecommunications, natural gas and oil pipelines, and flood control facilities.

Recreational opportunities on the Forest include: hiking, biking, winter sports, fishing, boating, water-play, off-highway vehicle use, picnicking, camping, scenic driving, and horseback riding. The Forest has approximately 550 miles of recreational trails, including 73 miles of National Recreation Trails and 176 miles of the Pacific Crest Trail.

Project Name: Pacific Crest Trail Maintenance: ANF 2014			Date/Time: 2014 Field Season
Project Location	Project Description		
Specific project location information will be published as projects are identified and scheduled. Contact Pete Fish for further directions.	The Pacific Crest Trail runs east to west across much of the Angeles National Forest. Throughout the 2014 field season, the Pacific Crest Trail Association (PCTA) volunteer crews will be repairing tread and brushing along the length of the trail; clearing dead/fallen trees; and trail rehabilitation through the Station Fire burn area. We will be adding these projects to the directory as they are scheduled. Each year, dedicated PCTA volunteers and staff flock to the woods with picks, shovels, saws and spirit to rebuild washed-out bridges, cut away fallen trees, and restore eroded portions of the trail. They recruit young and old by the hundreds to give time and energy to fix what needs to be fixed from Mexico to Canada. PCTA volunteers and corps crews devote tens of thousands of hours to keep the trail open. As a result, hikers and equestrians alike will tell you that the PCT is one of the finest trail experiences in existence.

Volunteer Feature

2013 Volunteer Accomplishments

Dear Angeles Volunteers:

I'd like to pass on to you the following message from Randy Moore, who is the Regional Forester of the Pacific Southwest Region of the Forest Service:

"The Volunteers & Services Program has rapidly become one of our most important Programs in the Agency at present and in the history of the U.S. Forest Service. The contributions that our numerous volunteers are providing this Region are continuing to help us accomplish the strategic goals we have in place with ecological restoration and ensuring a healthy workforce and workplace."

I want to echo Randy's words regarding the importance of what you do. I also want to thank and encourage you as you faithfully record and report your hours of service. Having accurate information about the work that our great volunteers are accomplishing is critical to the Forest Service mission.

We have completed our year-end tally of volunteer hours for 2013, and are extremely pleased to see that - for the second consecutive year - you have contributed more than 75,000 hours of service, valued at nearly \$1.7 million. This is incredible!

Thanks so much for all you do!

"It is time for a change in the way we view and manage America's forestlands with an eye toward the future. This will require a new approach that engages the American people and stakeholders in conserving and restoring both our National Forests and our privately owned forests. It is essential that we reconnect Americans across the nation with the natural resources and landscapes that sustain us."

Los Angeles River Ranger District (LARRD)

12371 N. Little Tujunga Canyon Road
San Fernando, CA 91342
(818) 899-1900

The Los Angeles River Ranger District is in the central section of the Angeles National Forest. Comprising about 200,000 acres, it offers a host of recreational opportunities including hiking, camping, water play in the creeks, picnicking and mountain biking.

Elevations in the district range from 1,200 to 8,700 feet. The higher area includes the upper reaches of the San Gabriel River canyons and the 5,700-foot Mount Wilson. The lower elevations are covered with chaparral, oak, sycamore and alders, while elevations above 5,000 feet feature pine, cedar and fir.

Top recreational areas include Chantry Flat Picnic Area and Trailhead, Cobb Estate Trailhead, Switzer Picnic Area and Trailhead, Buckhorn Campground and Lower Big Tujunga Canyon. The district has more than 375 miles of trails including sections of the Pacific Crest, Gabrielino, Silver Moccasin and High Desert trails.

Besides recreation, the district is used for movie filming, 50-K and 100-mile bicycle events, forest-product sales, TV and radio broadcasting and astronomy studies.

San Gabriel River Ranger District (SGRRD)

110 N. Wabash Avenue
Glendora, CA 91741
(626) 335-1251

The San Gabriel River Ranger District is one of the most heavily visited districts among national forests with more than 1.5 million visitors each year. The district is in the eastern-most portion of the Angeles, and spans over 182,500 acres providing a scenic backdrop for Los Angeles and San Bernardino counties.

The district offers a wide range of recreational opportunities. Forest visitors will find 95 miles of scenic hiking trails ranging from moderate 5 percent slopes to trails ascending at slopes of more than 60 percent. The trail system rises and falls throughout clusters of peaks surrounding the 10,000-foot Mt. San Antonio, also known as Mt. Baldy. The trail system includes a small portion of the Pacific Crest Trail and the rocky and winding Bear Creek trail into the San Gabriel Mountain Wilderness.

The district also includes the Sheep Mountain and San Gabriel wilderness areas and a portion of the Cucamonga Wilderness area with elevations ranging from 2,400 feet to over 10,000 feet. These wilderness areas offer rushing rivers, rocky gorges, deep canyons, and spectacular vistas.

The district has several developed campgrounds, as well as a 7-mile National Scenic Byway bicycle trail that bounds the West Fork Wild Trout area, and a 24-mile off-highway vehicle trail route. Visitors can also enjoy target shooting, hunting, and winter sports. The district also has an education program that serves area schools with a curriculum that meets State environmental education guidelines.

			Interested volunteers will have to make a commitment to the program; a staffing schedule will be set up to cover each location.

"Our tradition of voluntary association is still vital. And its vitality is rooted in good soil – civic pride, compassion, spiritual commitments, a sense of individual responsibility and, whatever cynics may say, a commitment to the great shared effort to improve our life together and to ensure a good future for our children and our children's children."

Santa Clara/Mojave Rivers Ranger District (SCMRRD)

33708 Crown Valley Road
Acton, CA 93510
(661) 269-2808

The Santa Clara Mojave Rivers Ranger District is the largest of the three districts in Angeles National Forest. It comprises about 390,000 acres in the north and northwest areas of the forest, offering hiking, picnicking, camping, off-highway vehicle trail riding, and other recreational activities.

Elevations in the district range from 1,286 feet to a high of 9,399 feet at Mt. Baden-Powell, the second highest mountain elevation on the forest. The historic Big Pines Information Office, just outside of Wrightwood sits at 6,862 feet the highest elevation on the San Andreas Fault. Terrain on the district ranges from high rugged mountain peaks and pine forest, to the lower foothills of the Mojave Desert with scrub oak and desert sage.

Top recreational areas include: Jackson Lake in the Wrightwood area for fishing, camping, hiking, picnicking, and snow play; Littlerock Dam for fishing and picnicking; and Pyramid Lake for boating, fishing, hiking and water play. Yearly visitors use the Mt. Baden-Powell trail as training in preparation for high elevation hikes in the High Sierras.

The Santa Clara Mojave Rivers Ranger District is also the home of the Mountain High ski resort, the largest ski resort on the Angeles National Forest. The district has also been used for numerous film and television projects and many commercials. The district contains the Magic Mountain and Pleasant View wilderness areas and includes Piru Creek to the west, designated as a wild and scenic river.
